About the Course Index

Aim of the Course Index

The aim of the course index is to provide applicants with a comprehensive list of courses on offer through the VTAC system.

This list was accurate as at 10 May 2010. New courses have been added since that time and more information may be found at **www.vtac.edu.au**

How to read the Course Index

Course Title – Courses are listed in alphabetical order under institution name and campus.

Qualification this indicates the qualification level for each course. Some courses will have more than one qualification.

Method – Study methods available:

F/T = Full time

P/T = Part time

Where there is no part time option shown, contact the institution directly to ascertain whether or not the course is available part time.

VTAC course codes .

These are the codes that must be used on the VTAC Online Application when listing preferences. Each code may only be listed once.

VTAC course codes for full time and part time options - For many courses the same course code applies for both full time and part time study methods – to apply for both options, you must only list the course code once. However, some courses have separate codes for full time and part time options – to apply for both options, you must list both codes.

Codes for multiple qualifications- For most courses the same course code applies more than one qualification of exit point. To apply for any one of the qualifications listed under this code, you only need to list the course one. You may determine the qualification at the time of enrolment. Some courses have separate codes for each qualification, in these instances you must list the each code individually.

For a complete explanation about the course codes go to page 18.

Last year's offer numbers:

This information is broken down into two groups:

» **2009 Year 12 students**: shows the number of offers made to 2009 Year 12 applicants, for tertiary places in 2010.

» **All applicants (including adults)**: shows the total number of offers made to applicants (2009 Year 12 students and all other applicant groups including adults) for tertiary places in 2010.
