PERMISSION FOR EXTENDED DISTRIBUTION OF ATAR

State and National Privacy legislation restricts the release of ATARs to the individual student (to whom the results belong) and to the School Principal or his/her nominee for a very limited range of purposes (e.g counselling of students).

You have the right to extend the distribution list.

As in previous years, [insert name of school] would like to be able to release the ATARs to those members of staff who have taken a keen interest in the social and academic progress of their students. This is seen by the School as part of a long and worthy tradition of pastoral care, mainly through Houses.

So that we may continue this tradition, celebrate your success with you and provide you with the best possible advice upon receipt of your ATAR, you are requested to consider the following information. Upon completion please return to the Curriculum Office.

Yours sincerely
