The Bachelor Degree (Honours) component has been removed from the above Bachelor Degree courses.		

## Policy reminders

### ATAR 2019: Changes to how unscored studies contribute to the ATAR

*First published November/December 2017. Clarification published September 2018.*

From December 2019, the rules on how unscored studies can contribute to the calculation of the ATAR will be amended. Unscored increments for VCE VET and VFE block credit are currently calculated as the average of the primary four. From December 2019, they will instead be calculated using 10 per cent of the fourth study score of the primary four.

Research undertaken by VTAC indicates that using the fourth scaled study score of the primary four, rather than the primary four average, is a closer match to what occurs for students with scored studies. It also shows that using the fourth study score of the primary four will ensure students with an unscored fifth or sixth increment are not disadvantaged over those who take a scored increment. This change does not apply to higher education increments as part of the VCE or to the Legitimate One Year increment.
