

The 2012 International Baccalaureate Combined Rank and Notional ATAR table

The Australasian Conference of Tertiary Admissions Centres (ACTAC) has agreed on, and passed to the IBO for communication to all Australian IB schools, the table to convert 2012 IB scores for 2013 university admissions in New South Wales & Australian Capital Territory, Queensland, Tasmania, Victoria and Western Australia. This conversion table, together with the Higher Education Study increments in terms of ATAR points shown below, is provided as the 2012 Combined Rank and Notional ATAR table.

The combined rank is based on the following weightings and state conversion tables:

- The IB population weightings used were the estimated IB Diploma candidate numbers for 2012, as provided by the IB Regional Representative – Australasia, with ACT and NSW treated as a single entity and NT and SA treated as a single entity. The Victorian weighting was therefore 48.75, with the SA/NT weighting being 25.90 and the NSW/ACT weighting being 25.35. These states accounted for 68.16% of the Australia wide IB population, with Queensland being the largest non-contributor.)
- The state ranks used in the calculation were the January 2012 rank table from NSW, the 2012 SA Rank Table, and the rank table from Victoria using the 2009-2011 local VCE with a LOTE and 2009-2011 local IB results.

2012 Passing IB Score including bonus points	Combined Rank / Notional ATAR
45	99.95
44	99.85
43	99.65
42	99.35
41	98.80
40	98.20
39	97.50
38	96.80
37	95.90
36	94.85
35	93.35
34	92.00
33	90.55
32	88.70
31	86.40
30	83.70
29	81.10
28	79.10
27	76.75
26	74.35
25	71.65
24	68.25

In 2012, there are three IB students enrolled in a Higher Education Study in Victoria. The ATAR increments for IB students completing a Higher Education Study in 2012 are set out below. For a given IB score and Higher Education result, the increment will be added to the Notional ATAR.

Higher Ed result	IB Score																					
	24	25	26	27	28	29	30	31	32	33	34	35	36	37	38	39	40	41	42	43	44	45
