Change of preference hotlines and session information	10-13

## VTAC and CEAV work together on Webinar series in 2013

We are pleased to announce that in 2013 VTAC will be working with the CEAV to present a number of webinar experiences to make sure that members are kept up to date with upcoming changes to the system and to inform practitioners about any new functions available through their online programs.

These webinars will not replace the existing VCE parent seminar series or careers teacher seminars, but instead will supplement the existing program.

Careers practitioners are advised to carefully check the VTAC calendar of events which will be available online from the careers practitioners section of the website in late January.

The first of the VTAC webinars will be held on 6 February 2013 from 4pm-5.30pm and centre on 'Updates to the Application System'. This will be followed later in the year with webinars targeted at SEAS, getting the best out of counselling year 10 students and two pilot seminars replicating a traditional July/August careers teachers' seminar and a VCE/Year 12 parent seminar.

For further information about these and other VTAC news subscribe to our [careers practitioners blog here](#).

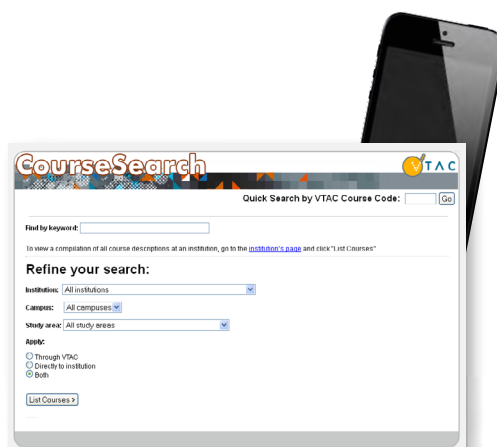

### Other Initiatives for 2013

In the short term (2013), we are investigating the development of:

- Device friendly online PDF of the VTAC Guide that includes weekly updates for subscribers.
- An online PDF of the VTAC Guide that includes a full course listing (including prerequisites, extra requirements, etc) that can be printed, annotated, searched and downloaded onto devices.

Users will be encouraged to subscribe to updates so that new and cancelled courses can be updated regularly.

- A refined CourseSearch program that reflects the feedback of the recent usability study – more information will be available in the February Bulletin.
