

The Victorian Institute of Teaching (VIT) is responsible for the certification of Education courses in Victoria. As part of this certification and unaware of the two year rule pertaining to prerequisites, the VIT advised institutions that prerequisite studies must be updated to include Units 1 and 2: general mathematics or mathematical methods (either).

Since that time, there has been confusion over the implementation of the VIT requirements, particularly as the changes to prerequisites fell outside of the 'two year rule'. In an effort to manage this change and discuss the implications VTAC met with VIT in October 2008, from which VIT provided the following written advice to VTAC:

"The minimum mathematics entrance requirement for an initial teacher education program accredited by the Institute is VCE Units 1 and 2 Mathematics (not including Foundation Mathematics) or equivalent and a minimum study score of 25 in Units 3 and 4 English (any).

For 2010 and onwards, this standard will be required as a minimum standard.

For 2009 entrance, providers may select students that may not meet these requirements, but they will be required to have established arrangements to ensure that this expected level of proficiency is achieved and exceeded by the time such students graduate."

Today the VTAC Management Committee agreed that VTAC would apply the exemption for 2009 granted by the VIT.

This means that:

1. Institutions will revert to the stated prerequisites in VICTER 2009 and associated Bulletins and therefore abide by the 2 year rule (refer to TABLE 1, VTAC Guide 2009 for the correct list of prerequisites).
2. Prerequisite statements for 2010 (TABLE 2) and 2011 (TABLE 3) have been updated to include a minimum of Units 1 and 2 general mathematics or mathematical methods (either) and a minimum study score of 25 in English (any).
