

About selection data

Selection Data

Selection data is produced for Type 1 courses, offered at universities and RMIT TAFE that use the ENTER (called the ATAR from 2010) as a significant criterion for course selection. The following groups of applicants are included in the calculation of this data:

- » 2009 year 12 students studying the VCE (or interstate equivalent) who were eligible for and received an ENTER (or equivalent)
- » 2009 students studying the IB in Victoria who were eligible for and received a Notional ENTER

Selection Data does not measure or include the selection standards for adult applicants and applicants with previous Year 12 or tertiary results.

It is calculated for the sole purpose of providing VCE (or interstate equivalent) students and IB students studying in Victoria, with an indication of last year's selection standards and corresponding ENTERs (or current equivalent) required for courses. The data is last year's data and should be used as a guide only.

Main Round Data, 18 January 2010:

Shows the selection standard of the main round of offers for tertiary places as of 18 January 2010.

Final Round Data, 5 February 2010:

Shows the final selection standard after all rounds of offers for tertiary places

The Clearly-in

The Clearly in ATAR is the rank at or above which all ranked (eligible) applicants who applied for that course were offered a place.

Clearly-in ATARs are not set in advance and as a result are different to Guaranteed ENTERs/ATARs and may vary from year to year.

In this example everyone who was eligible for, and applied for this course with an ATAR at or above 64.50 at the completion of Main round offers (18 January 2010) would have received an offer

The Clearly-in ATAR is determined by three factors:

- the number of places available in the course; and
- the number of applicants listing the course as a preference; and
- the academic achievement of those applicants.

The Fringe

The Fringe ATAR is the rank, at or above which the majority (95%) of offers were made.

Because this figure represents the ATAR at which 95% of offers were made not everyone above the Fringe ENTER will be automatically be eligible for, or made an offer.

For example :

- in Nursing, 95% of offers were made to students with an ATAR at or above 63.35
- in Graphic Design 95% of offers went to students with an ATAR at or above 83.95.

% of offers below the Clearly-in

The % of offers below the Clearly-in-ATAR represents the percentage of offers made to applicants with an ATAR lower than the Clearly-in.

Using Nursing as an example, in main round, 12.00% of offers were made to applicants with an ATAR lower than the clearly-in of 64.50.

n/a:

Not available (n/a) indicates that data is not available for this course because too few offers were made to produce reasonable data.

2009 Year 12 students

This figure represents the total number of 2009 year 12 students made an offer by that course.

Courses selecting on a Range of Criteria (RC)

RC- means that selection is based on a range of criteria, such as folio, interview, test, ATAR etc. To find out the specifics refer to Extra requirements and selection mode statements in individual course entries.

Total offers

Represents the total number of offers made for that course (including adults).
