Supplementary offers can only be made to applicants who have not received an offer in Early, First or Second round. An institution can make a supplementary offer to an applicant regardless of whether the course was listed in the applicant's preferences or not. For this reason, they should not be interpreted as a measure of demand by applicants.

Notes:

- 1 Some applicants received Supplementary offers from more than one institution. They have been counted against each institution from which they received a Supplementary offer. This is why the total Applicants Offered is higher than in Tables J1 and J2.
- 2 There were instances of the same applicant being enrolled (full time or part time) at different institutions. With regular offers, VTAC determines the Favoured Offer using the round number, but this is not always possible with Supplementary offers as an applicant can receive multiple offers in the same round. This is why the total Enrolments is higher than in Tables J1 and J2.
- 3 There were instances of the same applicant being deferred at different institutions. With regular offers, VTAC chooses the Favoured Offer (or deferment) using the round number, which is not always possible with Supplementary offers as explained above. This is why the total Deferments is higher than in Tables J1 and J2.

Notes:

- 1 Some applicants received Supplementary offers in more than one Field of Study. They have been counted against each field in which they received a Supplementary offer. This is why the total Applicants Offered is higher than in Tables J1 and J2.
- 2 There were instances of the same applicant being enrolled (full time or part time) in different Fields of Study. With regular offers, VTAC chooses the Favoured Offer using the round number, which is not always possible with Supplementary offers. This is why the total Enrolments is higher than in Tables J1 and J2.
- 3 There were instances of the same applicant being deferred in different Fields of Study. With regular offers, VTAC chooses the Favoured Offer (or deferment) using the applicant's round number, which is not always possible with Supplementary offers. This is why the total Deferments is higher than in Tables J1 and J2.
